

ATTACHMENT 2

Statement of Justification

This property is located on Old Maidstone Road, Marshall, Virginia and is zoned residential. Approval of the Aquarobic Septic System would allow for the construction of a single family home. This State approved septic system is recommended for approval by Barry Hadley, Soil Consultant for Greenway Engineering and Danny Hatch, County Soil Scientist. Their recommendations are based on Virginia State soil and site conditions. The home proposed would be a modest three bedroom Williamsburg Colonial, similar in size to the homes of the immediate area.
